

It's my honor and pleasure to provide this letter of recommendation for Aleksandar as he pursues an IT teaching position with IWC Internationellt Kvinnocentrum School. As the principal of IWC Internationellt Kvinnocentrum School, I've enjoyed having Aleksandar on the teaching team. We'll all miss him and his contributions to our school community.

Unfortunately, budgetary restrictions have forced us to reduce the IT teaching faculty, and as the most recent hire, Aleksandar will no longer have a position with us next year. This decision in no way reflects on his skills, and I wholeheartedly endorse his candidacy as he seeks a position elsewhere. It's my wish that he finds a school with the resources to support his talent for teaching IT.

Aleksandar started his teaching career with us fresh as NG project for integration of people in Sweden two years ago. He brought with him a solid training in pedagogical methods and IT history, along with great energy and enthusiasm. He introduced several new projects that are now a part of the curriculum, including a 3D graphics and motion animation projects. Aleksandar brings exciting new ideas to life; I'm confident that he will continue his momentum with his next school. Aleksandar also impressed me with his commitment to lifelong learning. He successfully collaborated with his mentor, took advantage of several professional development opportunities offered in the district, and took classes on digital technology and special education over the last two summers. He also went out of his way to elicit feedback from his students, inviting them to share their experiences at the end of each semester. It's this commitment to growth and his students' well-being that makes Aleksandar an outstanding educator who empowers his pupils.

Aleksandar is charismatic and creative, and he thinks outside the box. He has shown excellent classroom management skills and developed a rapport with students and colleagues that is characterized by mutual respect.

Aleksandar has my highest recommendation for the position of IT teacher, and I look forward to learning more about the accomplishments that lie in his professional future. If the circumstances were different, I would strive to retain Aleksandar on our technical department teaching team. Please don't hesitate to contact me for any further information. Thank you for your time.

Sincerely,

Mirela Muso
